

FOREST FIREWORKS LIMITED

Issue 16 volume 5

NEWSLETTER

Spring 2010

Forest Fireworks are looking forward to Sponsoring the second "Nostalgia day" at the Tramway Inn in Stratford upon Avon. The charity being helped is called Warwickshire Reminiscence Action Project. The charity trains people in Reminiscence Therapy so they can work more effectively with older people who have dementia. Last year's event raised £805.00.

In November we supported a Race Night for Charity which raised £1100.00.

In 2009 we tried out fireworks by Brothers. And we are pleased to say the items we chose to stock have had good reports. Before we stock an item we always vet them for value for money and their reliability.

Stratford lights switch on 2008

The effects were achieved by firing a Multicolour Chinese battery from a roof adjacent to the Town Hall

Retail Sales

Forest Fireworks are concentrating on selling quality fireworks to voluntary organisations and the general public.

The company web site depicts all the types of fireworks we stock and gives you a detailed description of what they produce when you light the touch paper. We also double wrap them in cling-film to ensure they will stay dry when set out before firing.

Single Ignition Hercules 11
Chinese New Year

Kimbolton Display Rockets that are some of the best, manufactured by Zink in Germany. Great effects and within the law for decibels. New regulations on rockets have reduced their impact on the sky by reducing the flash powder content. Chinese batteries are now a serious alternative to the rocket for effects and noise.

Stratford River Festival takes place 3rd 4th of July and there will be a fireworks display on the Saturday evening.
